## Hyperart Thomasson- Content Outline

I want to start of the site with a click through type introduction that is a clickthrough image of an example of a Hyperart Thomasson in the world that has text next to it saying “What’s the purpose of this?” or “what’s this doing here?” or something like that to peak the reader’s interest. After clicking through this intro page, I want a regular scroll through single page divided into multiple parts to explain:

- 1) What is Hyperart Thomasson
- 2) The origin of the term
- 3) History
- 4) Influence
- 5) Types of Thomasson (with example images)

Information about all of these can be found on the Wikipedia page provided.
