

Designer - Molly Magnell

Director - Calvary Fisher

- The design accomplishes the concept, referencing web and digital aesthetic of the vapor wave subculture without getting kitschy.
- The type is legible and works well.
- The title treatment is custom and works well
- On the biography section, consider placing the images in the middle of the run of text, so each page begins with text.
- Consider a title on each page, or having the left bar stay highlighted
- Finish the clickable albums
- Finish the Enter page
- Put the actual full band name somewhere
- Make a sources page
- The designer mentioned having the enter page be the video for Sticky Drama
- I would also like it if there was something a little more strange about the website, perhaps a moment of surprise
- Overall the design is simple and well-put-together, with subtle touches that show the personality of the subject matter
