

My microsite is going to be on the band Hands Like Houses. The first page will have basic information about the band as well as samples of their music. The second page will go on to tell the history of the band. The next three pages will be for each of their albums, giving detail on each one of them. There will be navigation on each page that links to each other page. I will also include links to their official website.

- **Index**
 - Hands Like Houses
 - Introduction
 - Band Members
 - Discography
 - Singles
