Topic: Women's Gymnastics at the 2008 Olympic Games

11/12/16

Notes:

- For information regarding how competitions work- could be created as our own graphics or we could pull information from FIG or other official sources- I think it will really come down to how much time we have.
- Athletes included- all of the medalists
- Info on the athletes: age, nationality, height, weight, Medals won at a world championships, Medals won at an Olympic games (subject to Designers choice)
- Included some videos- show image for the videos, not just linked text

- Format: ideally one page, the content sections are highly related so it would be nice to be able to easily navigate back and forth between sections
- For Photos: you can find some really nice google images!- could use for banners or full-bleed for title pages
- Link to info: https://en.wikipedia.org/wiki/Gymnastics_at_the_2008_Summer_Olympics
- Info on the Olympics generally- not necessary
- Try to pull visual references from the aesthetic of the games themselves.
- Scoring information: https://usagym.org/pages/events/pages/fig_scoring.html
 - Not sure exactly how we want to show this-experiment with different forms
