Mockup Reveiw Notes

Creative Director: Katie Segel
Designer: Alexandra Hammarskjold
11/10/16

Project Title: Stranger Things Microsite

- Overall the site does a good job of capturing the atmosphere of the show, excited to see it live
- Be careful with column width (it's might need to be a little narrower
- Do you need the links on the top and bottom? Could you maybe just link the netflix page or something on the bottoms so you aren't repeating yourself.
- Make sure things are lined up ex. Characters and text below it
- Will the pictures work on a live site?/What happens with slightly smaller screen sizes?
        - Maybe just put them in a grid-- keep the polaroid border
- I like the pages with more empty space (Try to keep this thoroughout)

PRODUCTION AND RELEASE PAGE
- not sure if you need pictures but if you do keep them then maybe add a border like you did for the first image
- have a much bigger border / keep things centered
