Project Title: Nutella

I'd like this website to be made up of a home page introducing Nutella, but being made up of multiple pages with a nav bar at the top about the following topics. Photos could be searched on Google. I think sticking to textural photos might be kind of cool, and keeping the red/white/brown color scheme would be nice.

- Nutella intro
- History
 - Ferrero and son's story
 - Nutella Day
 - Leave out palm oil and lawsuit part
- Ingredients and Processing
 - The actual process of making nutella + why (cocoa beans were scarce at the time) is really cool
 -am I too obsessed?
- Production
 - General locations of where Nutella is made for which parts of the world
 - A map, maybe??
- Controversies
 - Lawsuit
 - Tax cuz palm oil
- Sources
 - Wiki article + google photos
