

**Creative Director:** Maya Mashkovich

**Designer:** Victoria Chen

**Meeting Notes:**

- Navigation bar
  - Make sure theres no top margin. Maybe just set body to margin and padding 0
  - Center the buttons on the bar
  - Maybe consider making the buttons a little bigger
- Text
  - Black on white text works better than the white on black – maybe mess with the size and weight of the font to make it easier on the eyes
  - More line spacing could help
  - Make the columns of text thinner so there isn't so much tension between the text and the supplementary picture
- Page Styles
  - Make/choose two different styles to implement – right now you have three! Maybe go with the white background black text, and then thing of something else for the controversies page
  - We kinda talk about having a black box with text on it instead of a whole column
- Photos
  - Just make sure that grainy photos are replaced with cleaner ones
