Creative Director: Olivia Alchek
Designer: Maya Mashkovich

Meeting Notes:

-Make all of the copy text consistent- only one of them has a white block behind it while the other descriptions are on top of a gradient
-Maybe change first photo to a picture of the Stars Hollow gazebo? Make a gradient to be consistent with the other sections
-Add a title to every section so the reader know what they're reading when they scroll instead of click the menu bar
-Make the dark brown menu bar and footer a bit lighter/ warmer brown
-For the seasons section- just use the season title, a couple stats (when it aired, how many episodes), and a button/link to the Wikipedia page for the episode descriptions from that season
