

Creative Director: Taylor Tuteur
Designer: Wade Johnson

Warped Tour website

Meeting notes:

- Front page would be a large image of a crowd (to reflect a community that Warped Tour brings together every year)
 - Some sort of text box over the image giving an introduction of the festival, brief history, type of music
- General design and tone of the website would have similar aesthetic of a flyer for the tour, nothing fancy or super refined (it's a punk festival, after all)
 - Colors would match colors of Warped Tour logo
- Tabs that lead to the other pages
- Minimalist/simplistic layout, gets the information across and isn't super complicated
