

Creative Director: Victoria Chen  
Designer: Julia Thummel

Here are the results from reviewing the initial mockup:

- Increase the sizes of images so that they better showcase menu items/dishes.
- Experiment with different button types on the Home Page (try to eliminate the “blocky button” style for a subtler and sleeker alternative)
- Experiment more with text placement on the page with addresses and maps.
- For menu items, place text in a centered, single column.

Overall, Julia did a wonderful job. I’m happy with the progress of this website.
