

Notes from Mockup Review

Wade Johnson (Creative Director)

So A Ryu (Designer)

- We agreed to change some of the page titles to “College” and “NFL” for clarity
- Overall the visual language was working well, simple/masculine/good images
- Talked about changing the point size of the text in the navigation bar to be a little bit smaller
- Font choice was working
- Decided that the text for the basic info about Derek Carr would come from the first and last sections of the wikipedia article
