Derek Carr Website

My plan for the website is to make 3-4 pages of information on Derek Carr, quarterback of the Oakland Raiders. There will be ample amount of images to select from, and I plan to make the images I choose very prominent on the page. The site will most likely include a navigation bar across the top.

- **Home page/Introduction:** basic information about Carr (when he was born, what team he plays for, etc.)
- **Early Years:** where he grew up, high school life, high school statistics
- **College Career:** college statistics, awards
- **Professional Career:** (possibly make this page in 3 sections)
 - NFL Draft: where he was selected, contract, etc.
 - 2014 Season: statistics, awards, highlight games
 - 2015 Season: statistics, awards, highlight games
- **Sources:** images, wikipedia article, statistics
