

Notes from HTML Review

Wade Johnson (Creative Director)

So A Ryu (Designer)

- Fix tiling issue with main Derek Carr image on front page
- clicking on "Derek Carr" on home page will cycle through images
 - the words "Derek Carr" will change color? fade? to indicate that it is clickable
- Fix scaling issue with main background image of Derek
 - make responsive, right now it remains fixed
- Fix links in the navigation bar
- Navigation bar will switch positions when scaling? Left side of page?
- College/NFL pages will feature large images of Carr along with a link to his statistics
 - instead of actually having to include/format statistics it works well to have a link to stats
